Dear Mrs. Diana McIntyre-Pike,

Thank you so much for all of your work in ensuring another successful trip for the students to Jamaica. Your flexibility and connections have provided us an itinerary rich in cultural experiences, yet varied enough to take home genuine Jamaican memories. The students from my last group often talk about seeing the "real" Jamaica, something you know that does not happen for the majority of tourist who visit your island. I'm not sure they will ever be able to visit another country again without learning about the people and customs that make them unique.

Today I am specifically writing to thank you for the excellent and accommodating service we have consistently received from Air Jamaica. They have been superb at meeting our needs as a large group. This coming January I am planning on bringing another large group of nursing students to your country. I am hoping for around 25-30 students. We are planning on arriving on January 3rd and returning home on January 11th. It has always been worth my effort and extra cost to transport the students from Milwaukee to Chicago so we can fly Air Jamaica. I hope that our loyal use and large groups can be considered by the airline as they work out a group rate.

The Astra and Air Jamaica are excellent ambassadors for your country and I look forward to our continued relationship.

Sincerely,

Luanne Wielichowski
